

AdvanceMobile

THE PERFECT LAND MOBILE RADIO (LMR) REPLACEMENT SOLUTION!

You do have an alternative!

The AdvanceMobile™ is a complete in-vehicle communications solution that requires ONLY an activated cellular provider. No additional phone is required. Perform Nationwide communications from the vehicle to up to 9 different pre set Private IDs.

(PTT + Cellular Calls + Text Messages + GPS)

Standalone in-vehicle communications unit

The AdvanceMobile™ is a standalone ePTT communications vehicle mounted solution designed to operate on your wireless network. The AdvanceMobile™ is a highly reliable solution, and serves as an alternative to 'trunking' mobile radio Push-To-Talk systems available in the market today.

- Standalone installed push-to-talk (ePTT) & cellular in-vehicle communications solution
- Provides location for 79 cellular/dispatch (ePTT) numbers
- Provides location for 20 group names updated over the air
- Allows name customization for private and cell phone numbers
- Provides for 10 preloaded SMS/TEXT messages to be sent
- Receive and display 128 character SMS/Text messages
- Supports GPS tracking
- Loud and clear 10 watt speaker
