

# 12 BAY CHARGER

## FOR SONIM XP8™

Designed to support today's Li-Ion batteries. As public support agencies and commercial enterprises deploy more and more mobile devices, the need to charge and maintain larger quantities of batteries rapidly becomes critical. Managing dozens of individual chargers is not practical and no longer necessary.

### FEATURES

- Supports Li-Ion batteries
- Twelve charging stations that operate independently
- Rapid and simultaneous charging
- Batteries can be charged anytime
- Use as desktop or in-vehicle mount
- Heavy-duty, robust aluminum construction
